

Positive behaviour statement

We place the emotional, physical and social well-being of our students and staff at the forefront of all that we try to do.

Each of our schools differs in cohort and so has developed its own approach to behaviour and how it is managed.

Each school has a policy that covers this.

Each school then completes a termly report which includes incidents of behaviour to the full Trust Board. The reports are discussed and any changes are implemented and subject to continuous review and subsequent improvement.
