# **GENDER PAY GAP REPORT**

**Reporting period 31<sup>st</sup> March 2021**

**Published March 2022**

## 1.0 Introduction

We are an employer required by law to carry out Gender Pay Reporting under the Equality Act 2010 (Specific Duties and Public Authorities) Regulations 2017. This involves carrying out six calculations that show the difference between the average earnings of men and women in our organisation; it will not involve publishing individual employee's data. We are required to publish the results on our own website and a government website. We will do this within one calendar year of March 31st.

We can use these results to assess:

- The levels of gender equality in our workplace.
- The balance of male and female employees at different levels.
- How effectively talent is being maximised and rewarded.
- The challenge in our organisation and across Great Britain is to eliminate any gender pay gap.

The results show the difference in average pay between all men and women across Hope Learning Community's workforce, which comprised 282 employees at the snapshot date. It is different to equal pay, which is the difference between men and women who do the same job and role in the workforce.

The snapshot date for Hope Learning Community was 31st March 2021.
